

Autodesk®
Authorized Education Partner

- Course:** Autodesk 3ds Max 2010 Training
- When:** Monday, February 1st, 2010
9:00am - 4:00pm
- Where:** Technical Vocational High School
1555 Wall St.
Winnipeg
- Cost:** \$325.00 per attendee*
*minimum 5 attendees needed to run training

Course Description:

The day will consist of an intermediate level lesson in 3ds Max. Students will begin the course with an introduction to some of the workflow and techniques we will be using, and then dive into a scene, creating advanced materials and lighting solutions in Mental Ray, 3ds Max's advanced rendering system. Proper lighting and material application is what really brings a scene to life in 3D. Students will produce a photorealistic scene and be armed with the ability to transfer the concepts covered to any of their own projects.

Topics covered include:

- Basic modeling concepts
- Simple animation techniques
- Lighting and global illumination in Mental Ray
- Mental Ray Materials
- Architectural Materials
- UVW unwrapping
- Texture creation techniques
